DEPARTMENT OF AGRICULTURE, BENGAL.

Forecast of the Winter *Til* (Sesamum) crop of Bengal, 1927-28.

(NOTE.—On an average of the five years ending 1925-26, the area under *til* in Bengal has represented some 2·8 per cent of the total area under *til* in British India.)

Character of the season.—The weather at the outset and during the early period of growth was generally favourable excepting in some West and North Bengal districts, where a less area was sown owing to scanty rainfall. Excessive rainfall in September in Mymensingh and late subsidence of flood-water in Dacca and Tippera also somewhat retarded the cultivation of the crop in these districts and less *til* was sown this year in consequence. Lack of adequate soil-moisture owing to continued drought at the time of maturity adversely affected the outturn notably in the districts of Nadia, Jessore, Birbhum, Dinajpur and Malda. Elsewhere the outturn is expected to be fairly satisfactory.

Acreage.—The total area sown with the crop this year is estimated at 50,700 acres against 52,900 acres last year.

Outturn.—According to District Officers' estimates, the outturn of the crop for the province as a whole works out at 83 per cent. of the normal, against 92 per cent. last year. Taking 6 maunds as a normal rate of yield per acre, the gross outturn for the province is estimated at 9,300 tons this year against 10,900 tons last year, or a decrease of about 15 per cent.

ROBERT S. FINLOW,
Director of Agriculture, Bengal.

(POLICE.)

New Delhi, the 2nd January 1928.

No. F.-25-III.—Pol.—His Majesty the King, Emperor of India, has been pleased to confer the King's Police Medal, and in four cases a bar to the Medal previously awarded, on the following officers and men of the Indian Police establishments :—

Name of officer and rank	Statement of services for which in particular the decoration has been conferred.
* * *	* * *

BENGAL.

5. Tuni Meerza, Superintendent of Police.

This officer joined the Police Department in 1899 and was promoted to the Indian Police Service in July 1917. He was Superintendent of Police at Pabna when there was an outbreak of communal disturbances in that district in July 1926. He was faced with a very serious situation, particularly during the first two days of the trouble before reinforcements could reach him, as he had to keep in check a large and excited populace with only a small police force at his disposal. He and his men were on duty continuously for more than 48 hours. He handled the situation admirably, and throughout laboured indefatigably in bringing it under control. He displayed qualities of leadership and organisation of a very high order, coolness, energy and tact, and it was largely due to his personal efforts that the trouble did not spread to surrounding districts.

GOVERNMENT OF BENGAL.

LEGISLATIVE DEPARTMENT.

NOTIFICATION.

No. 181., dated Calcutta, the 5th January, 1928.—The following Bill introduced in the Bengal Legislative Council on the 14th December, 1927, on the motion of Rai Harendranath Chaudhuri is hereby published for general information together with the Statement of Objects and Reasons annexed thereto—

THE BENGAL VILLAGE SELF- GOVERNMENT (AMENDMENT) BILL, 1927.

A

BILL

*to amend the Bengal Village Self-Government
Act, 1919.*

Preamble.

• WHEREAS it is expedient to amend the Bengal Village Self-Government Act, 1919, in the manner hereinafter appearing;

It is hereby enacted as follows:—

Short title.

1. This Act may be called the Bengal Village Self-Government (Amendment) Act, 1927.

New section substituted for section 20 of Bengal Act V of 1919.

Appointment of dafadars and chaukidars.

2. For section 20 of the Bengal Village Self-Government Act, 1919 (hereinafter referred to as the said Act), the following shall be substituted, namely:—

“ 20. (1) The union board shall, when a vacancy exists, appoint a person to be a dafadar or a chaukidar:

(2) The union board may dismiss any dafadar or chaukidar and the District Magistrate may dismiss any dafadar or chaukidar who has failed to exercise the powers or to perform the duties referred to in section 23:

Provided that when making an order dismissing a dafadar or a chaukidar the District Magistrate shall consider the views of the union board and shall record his reasons in writing.

(3) Notwithstanding anything contained in sub-section (1) any dafadar or chaukidar already employed in any union existing at the commencement of the Bengal Village Self-Government (Amendment) Act, 1927, shall be deemed to have been appointed under this Act.”

New section substituted for section 21 (1) of Bengal Act V of 1919.

3. In section 21 of the said Act—

For sub-section (1) the following shall be substituted, namely:—

“ (1) The number of dafadars and chaukidars to be employed in a union, the salary to be paid to them, and the nature and the cost of the equipment shall be determined from time to time by the union board:

Notwithstanding anything contained in this sub-section, the number of dafadars and chaukidars employed in a union, the salary to be paid to them and the cost of their equipment shall continue to be the same as on the day on which the Bengal Village Self-Government (Amendment) Act, 1927, comes into operation until altered under the provisions of this sub-section.”

STATEMENT OF OBJECTS AND REASONS.

One of the primary functions of union boards is to provide for the maintenance of the village watch. They have to raise by taxation adequate funds for it and to pay regularly the salaries and the cost of equipment of the village chaukidars. It is therefore only proper that they should have full control over the dafadars and chaukidars. It is also expedient and necessary in the interest of the efficiency of the village police that they should be under as little dual control as possible. Well-informed persons are aware that the legal provisions regarding the control of the village watch have been changed from time to time and have more than once been the subject of separate amendment. No apology is therefore required for such a short amending Bill. Further it is widely felt that the union boards, if they are to be real institutions of local self-government, should have full control over their servants; at any rate the village authorities should have no less powers than they enjoyed under the old Act of 1870.

CALCUTTA, THE 17TH DECEMBER, 1927.

RESOLUTION—No. 6636 Vety.

Minister-in-charge: The Hon'ble Sir P. C. Mitter, Kt., C.I.E.

READ—

Annual Reports of the Civil Veterinary Department, Bengal, and of the Bengal Veterinary College, for the year 1926-27.

I.—Civil Veterinary Department.

Mr. P. J. Kerr held charge of the office of the Director of Civil Veterinary Department and Veterinary Adviser to Government throughout the year. Rai Sahib Sharat Chandra Pal was Assistant Director in charge of the Western Range throughout the year, except

for 2 months' leave, and Babu Nripendra Nath Mazumdar was Assistant Director in charge of the Eastern Range throughout the year.

2. There has been no noticeable change in the administrative arrangements generally during the year under review, but Government have had under consideration a number of important schemes submitted by the Veterinary Adviser. Administrative approval has been given to his proposal to supply local bodies with free serum for inoculation against epidemic diseases. Whilst inoculation, if promptly and universally applied, affords a practically certain method of stamping out epidemic disease, the difficulty felt by local bodies in meeting, and their consequent reluctance to incur, the heavy expense on account of the purchase of preventive serum, has made it difficult for the Veterinary Department to deal with these outbreaks satisfactorily in the past. Consequently, while adhering to the view that the ordinary care of animals is a matter which properly appertains to local bodies, Government decided to treat the combating of epidemic disease on provincial lines. Administrative approval has similarly been given to the employment of 9 extra staff Veterinary Assistant Surgeons for epidemic and propaganda work; and to the appointment of an officer of the rank of Inspector to carry out propaganda on the subject of the prevention of diseases, etc. It is hoped that funds will be provided for these purposes in next year's budget.

A valuable scheme for thana dispensaries to be administered by groups of Union Boards was drawn up in consultation with, and with the concurrence of, those bodies by the Collector of Faridpur, Mr. L. B. Burrows, and was submitted to Government by the Veterinary Adviser. The scheme was approved by Government but the wording of the Village Self-Government Act as it now stands prevents the fulfilment of the scheme in practice. The amendment of the Act is under consideration.

3. The total number of deaths of animals due to epidemic disease was 35,719 as compared with 33,224 in the previous year. The Director attributes this not so much to any actual increase in the prevalence of disease as to a better system of intelligence. Rinderpest with 33,405 deaths accounted for over 93 per cent. of the casualties, while 1,492 heasts died of hæmorrhagic septicæmia, 464 of these being in the district of Midnapore. Khulna and Bakarganj had over 4,400 deaths each from rinderpest, Chittagong running them close with 3,239. It is noticeable that the Sodepur Pinjrapole had 193 deaths from contagious diseases, a total which exceeded that of either Cooch Behar, Darjeeling, Bogra, Hooghly or Howrah. This, however, is an immense improvement on the two previous years when 1,742 and 865 inmates of this institution succumbed.

The Hon'ble Minister is glad to observe that there has been an appreciable increase in the number of cattle inoculated, *viz.*, 206,616 as against 173,762 in the previous year, but there are 25½ million cattle in Bengal and an inoculation rate of less than 1 per cent. can only mean that there is a long way to go before it can be said that the Department has obtained control of epidemic disease. Government will watch with interest when these schemes came into operation the effect of the free supply of serum and of the increased staff, referred to in paragraph 2 above.

The usual work of the Veterinary Assistant Surgeons was carried on, and 126,661 cases were treated as against 100,830 in the previous year. The staff of reserve Veterinary Assistant Surgeons was increased by 4.

Two new dispensaries, one at Kharagpur and one at Tangail, were opened during the year and there were 4 more Veterinary Assistant Surgeons employed by local bodies than in the previous year. There was again an increase in the number of cases treated at dispensaries, *viz.*, 56,184 as against 51,025 or nearly 10 per cent., which is much the same rate as the previous year showed in respect of its predecessor, and a proof that the services of the Department are appreciated. It is satisfactory to observe that the District Board of Faridpur have provided funds for the construction of serum cellar.

The Department took its share in that successful enterprise of the Eastern Bengal Railway, the Demonstration Train, and the Veterinary Adviser reports favourably on its results.

4. His Excellency acting with the Minister-in-charge notices with pleasure the names of officers of the Department who did good work during the year and desires to acknowledge also the efficient way in which Mr. Kerr discharged his duties.

II.—Bengal Veterinary College.

5. Mr. A. D. MacGregor held charge as Principal; Mr. R. T. Davis as Vice-Principal, and Rai Sahib Dihakar De as Assistant Principal throughout the year. Towards the close of the year Government issued orders placing the College directly under Government instead of being, as hitherto, under the control of the Veterinary Adviser.

6. There was an increase in the number of students attending the College, the number at the close of the session being 125 as against 100 in the previous year. At the beginning of the present session there were 168 students, but a certain number always fall out during the course of the year. The increase is probably due almost entirely to the decision of Government to reintroduce the Government stipends for Bengal students. These were discontinued in accordance with a recommendation of the Retrenchment Committee with effect from May, 1923, and were followed by an immediate drop in the number of Bengal students in the two succeeding years. They have been reintroduced with effect from the current session. The remark of the Board of Examiners in respect of the annual examination held in February-March, 1927, that the results were highly satisfactory in classes A and B and fairly satisfactory in class C reflects credit on the teaching staff. The teaching staff was strengthened by a new appointment of Assistant Lecturer in the Inspector grade.

7. The number of patients treated and operations performed showed little variation, *viz.*, 2,562 and 374, respectively, as compared with 2,587 and 296 in the previous year.

Valuable work was as usual carried out at the Raymond Research Laboratory, in examination of pathological specimens of brains for rabies and so on.

8. During the year under report the Committee of Management of the College which had been more or less in abeyance for many years was reconstituted and its duties defined.

9. His Excellency acting with the Minister-in-charge notices with pleasure the names of those of his staff mentioned by the Principal for good work during the year and desires to acknowledge the care and attention which Mr. MacGregor has devoted to the administration of the College.

10. The Minister would conclude this resolution by stating that he has to discharge the duty of reviewing the administration of a year in the policy or supervision of which he had no hand and so naturally he had to proceed on records as he found them. The difficulties of his delicate task have been further enhanced by the fact that he had to undertake this duty even before he had a reasonable time to shape his own policy.

By order of the Government (Ministry of Agriculture).

R. N. REID.

Secretary to the Government of Bengal.

The manner in which the Committee will discharge its duties is as follows :—

The members will not visit the hospitals individually; the Committee will form itself into groups of not less than five members, each group in turn will, according to a roster to be kept for the purpose, visit the hospitals on a fixed day and at a fixed time in each month. In addition to these visits at fixed times the members will pay unexpected visits to the hospitals, provided that they do not go at times which are inconvenient to the hospital authorities. If all the five members of the group are not present, the remaining members can go round without the absence or absences, as the case may be. The members constituting the group should inspect the internal arrangements and offer such suggestions regarding the administration of the institution as they think proper. The Committee as a whole will meet at least once a quarter, review the reports of the visiting groups and discuss the remedial measures adopted. The Superintendent of the Medical College Hospitals should attend the meetings of the Visiting Committee.

A visitor's book will be kept in the hospitals in which the recommendations of the Committee will be recorded. The Superintendent will note on the margin the action taken on each recommendation with any other remarks or explanations that he may wish to offer. He will transmit a copy of the entries without delay to the Surgeon-General with the Government of Bengal for consideration. The Surgeon-General will take such further action as may seem necessary and will bring to the notice of Government any matter which he thinks sufficiently important. The members will hold office for one year from the date of appointment.

Ben. Act
III of 1884

STATEMENT OF OBJECTS AND REASONS.

Objects and reasons as regards the Cossipur-Chitpur area.

The Calcutta Municipal Act, 1923, as it was originally framed, did not include in its local extent the Cossipur-Chitpur area, and the Bill even when it emerged from the Select Committee did not include that area. This area was amalgamated with Calcutta in the teeth of vehement opposition by the rate-payers and against the deliberate and considered recommendations and opinions to the contrary made and given by the Amalgamation Commission appointed by Government, the then District Magistrate of 24-Parganas, and the Commissioners of the old Cossipur-Chitpur Municipality. The motion for amalgamation was carried by a very narrow majority in the Bengal Legislative Council, even the Hon'ble Minister in charge of the Bill voting against the same. It was generally thought that the step of increasing the liabilities and obligations of the Corporation of Calcutta by adding to the already extensive city the aforesaid vast area of Cossipur-Chitpur, covering more than four square miles and comprising many mills, factories and business houses, was a menace to the health and population of the city. Even before the amalgamation of that area, the Corporation of Calcutta was not in a position to meet its statutory obligations as regards the city proper in a satisfactory way. And this has been much more the case after the amalgamation, as it was bound to be, both in respect of the city proper and the said added area; and the position has been rendered worse on account of the financial difficulties of the Corporation. For this reason, many good schemes have either been abandoned or postponed, and there is very little hope of the said schemes being ever carried out if the aforesaid vast area is any longer kept within the limits of the Corporation of Calcutta. On the other hand, the people of the said added area, will not certainly for many years to come enjoy the amenities which are now being enjoyed by the residents of the city though the former have been called upon to pay rates and taxes many times more than their former assessment, ignoring the salutary provision made by the Legislature for levying a lower and progressive rate under section 7 of the Calcutta Municipal (No. 11) Act, 1923, thus causing much dissatisfaction amongst the rate-payers of that area, notwithstanding the partial reduction of valuation of holdings made in some cases by the Chief Executive Officer in the exercise of his powers under section 146 of the Calcutta Municipal Act, 1923. Moreover, the administration by the Corporation of Calcutta is costlier than that by the old Municipality, which was commended in successive Government annual reports, and under which the people enjoyed many privileges and facilities of which they have now been deprived. In fact, there was no case made out for amalgamating the said area with Calcutta by abolishing a flourishing and popular Municipality which effected considerable improvements in every direction within the said area, and had a combined surface drainage and sewerage scheme and other important schemes ready for being taken up, though it derived a much lower income by taxation under the system provided for in the Bengal Municipal Act, 1884.

Objects and reasons as regards the Garden Reach area.

Most of the above reasons also apply to the case of the Garden Reach area, which comprises nearly 4½ square miles and is mostly undeveloped and consists extensively of jungles, ditches, tanks and paddy lands, without lights, filtered water, roads or drains. Most

of the inhabitants of this area are very poor and they can ill afford to pay the exorbitant taxes imposed upon them by the Corporation of Calcutta, as a result of which their goods have been seized under distress warrants and many of them have been rendered homeless. Owing to their inability to pay taxes, almost all the inhabitants have been disenfranchised: where there were nearly 600 Muhammadan electors before, there were less than 50 at the last General Election.

Similar Bill
passed by the
last Council.

It will be remembered that a Bill with the same object as the present one was introduced by Dr. A. Suhrawardy and passed by the Legislative Council on the 18th August, 1926, but the same was not assented to by the then Governor of the Province. But, in his letter to Dr. A. Suhrawardy, His Excellency observed: "It will be always open to the next Council, should they desire to do so, to consider at leisure a fresh Bill with the same object." The present Bill is introduced with necessary amendments and it is hoped that the present Council will extend to it the same sympathy and support as was given by the last Council to Dr. A. Suhrawardy's Bill.

DEPARTMENT OF AGRICULTURE, BENGAL.

First Forecast of the wheat crop of Bengal, 1927-28.

[NOTE.—On an average of the five years ending 1925-26, the area under wheat in Bengal has represented some 0·4 per cent. of the total area under wheat in India. The ratio of the irrigated wheat acreage to total wheat acreage in (a) British India and (b) in the territory now reported on has, in the five years ending 1925-26, averaged (a) 39·0 and (b) 14·2 per cent., respectively.]

Explanatory.—Four forecasts of the wheat crop are published. This forecast deals only with the area sown and the general condition of the crop in its early stages.

Acreage.—According to the estimates of the District Officers, the total area sown amounts to 107,100 acres as against 128,700 and 129,300 acres, reported, respectively, in the corresponding and final forecasts of last year.

Character of the season.—The rainfall during the latter part of the monsoon period was sufficient for cultivation and for early sowings, but prolonged drought delayed later sowings and affected the growth of early crops especially in parts of North and West Bengal. The present condition is generally reported to be fair except in Nadia, Murshidabad, Bankura, Rajshahi, Bogra and Malda, where it is poor.

For the week ending on the 11th January 1928.

Summary.—Dry weather continued. Sowing of spring crops is over. Harvesting of winter paddy is nearly completed; threshing continues. Transplantation of summer paddy seedlings is progressing. Standing spring crops are doing fairly well except in some West and North Bengal districts where the condition continues to be reported as poor. Preparation of lands for jute and other autumn crops is proceeding in East and North Bengal districts. Distress continues to prevail in parts of Nadia, Bankura, Dinajpur, Murshidabad, Birbhum and Malda. In the latter three districts the number of persons employed on test relief works was 1,370, 321 and 1,350 respectively. The average price of common rice for the province has fallen by about 0·58 per cent. as compared with that of the previous week.

DRAFT RULES.

Preliminary.

These rules are applicable to, and shall be followed by persons in charge of, all inland steam-vessels, and all other vessels, hereinafter specified, on all inland waters in Bengal on which steam-vessels ply, provided that rules 8, 21, 22 and 23 shall not apply to steam-vessel plying on the river Hooghly, between a line drawn west of Saugor Island Lighthouse and the northern boundary of the Port of Calcutta.

For the purposes of these rules—

- (a) a vessel shall be deemed to be "underway" when she is not at anchor or made fast to the shore or aground, and
- (b) the word "visible" when applied to lights shall mean visible on a dark night with clear atmosphere,
- (c) The word "steam vessel" shall include any vessel propelled by machinery.

Rules Concerning Lights, etc.

Article 1.—The rules concerning lights shall be complied with in all weathers from sunset to sunrise, and during such time no other lights which may be mistaken for the prescribed lights shall be exhibited.

Article 2.—(1) A steam-vessel when underway shall carry—

- (a) in the forepart of the vessel above the awning roof a bright white light so constructed as to show an unbroken light over an arc of the horizon of 20 points of the compass, so fixed as to throw the light 10 points on each side of such vessel, *viz.*, from right ahead to 2 points abaft the beam on either side, and of such a character as to be visible at a distance of at least 2 miles;
- (b) on the starboard side a green light so constructed as to show an unbroken light over an arc of the horizon of 10 points of the compass, so fixed as to throw the light from right ahead to 2 points abaft the beam on the starboard side, and of such a character as to be visible at a distance of at least 1 mile;
- (c) on the port side a red light so constructed as to show an unbroken light over an arc of the horizon of 10 points of the compass, so fixed as to throw the light from right ahead to 2 points abaft the beam on the port side, and of such a character as to be visible at a distance of at least 1 mile.

(2) The said green and red side-lights shall be fitted with inboard screens projecting at least 3 feet forward from the light, so as to prevent these lights from being seen across the bow.

Article 3.—(1) A steam-vessel when towing other vessels which are lashed alongside shall have the white masthead light and the red and green side-lights so placed that they will be visible as set forth in Article 2 (1).

(2) When vessels are being towed alongside the side-lights prescribed in Article 2 (1) (b) and (c) shall be carried on the outermost side of the outermost vessel on each side. None of the other vessels shall exhibit side-lights.

(3). In cases in which a flat or other vessel is being towed by two steam-vessels lashed alongside on each side they shall have the white masthead light and the red and green side-lights so placed that they will be visible as set forth in Article 2 (I), i.e., the white light prescribed in Article 2 (I) (a) shall be carried on the vessel towed, the green and red lights prescribed by Article 2 (I) (b) and (c) being carried by the steam-vessels lashed to the starboard and port sides respectively of the vessel towed. Such steam-vessels together with the vessel towed by them shall be taken as one vessel for the purpose of this rule.

(4).—A steam-vessel when towing other vessels astern shall, in addition to her side-lights, carry two bright white lights in a vertical line one over the other not less than 3 feet apart in the fore part of the vessel. Each of these lights shall be of the same construction and character as the light prescribed in Article 2 (a).

Article 4.—All vessels under oars or sails when under way, and all vessels being towed astern shall not be obliged to carry the lights mentioned in Article 2 (I) (b) and (c) but if they do not carry them they shall, in those cases where there is a mast, carry thereon a white light in a lantern so constructed as to show a clear, uniform and unbroken light visible all round, and in those cases where there is no mast, shall show continuously a similar white light from a conspicuous position so as to be visible all round.

Article 5.—A vessel which is being overtaken by another, shall show from her stern to such last mentioned vessel a white light.

Article 6.—Every vessel, when at anchor, or made fast to the shore or to a jetty or landing stage or to another vessel not underway, shall carry where it can best be seen, a white light in a lantern so constructed as to show a clear, uniform and unbroken light visible all round at a distance of at least 1 mile.

A vessel aground in or near a fairway shall carry the above light.

Article 7.—A steam-vessel using the electric search-light shall on meeting another throw the light broadly on that side of the river which she intends to take. When a steam-vessel makes fast to allow another such vessel to pass, the search-light of the stationary vessel shall be either extinguished or be kept broad on the bank until the moving vessel has passed.

Article 8.—Whenever a red cone or red flag is hoisted by a dredger it shall be taken as a warning by other vessels not to pass her as she is engaged in dredging.

Sound Signals for Fog, etc.

Article 9.—All signals prescribed by this article for steam-vessels underway shall be given on the whistle or siren.

The words "prolonged blast" used in these rules shall mean a blast of from 4 to 6 seconds duration.

A steam-vessel shall be provided with an efficient whistle or siren, scounded by steam or some substitute for steam, so placed that the sound may not be intercepted by any obstruction, and also with an efficient bell.

In fog, mist or heavy rain-storms, whether by day or by night, the signals shall be used in the following manner:—

- (a) A steam-vessel having way upon her shall sound at intervals of not more than two minutes, a prolonged blast.
- (b) A steam-vessel underway, but stopped and having no way upon her, shall sound at intervals of not more than two minutes two prolonged blasts, with an interval of about one second between them.
- (c) A steam-vessel, when at anchor, shall at intervals of not more than one minute, ring the bell rapidly for about five seconds.

Speed of Ships to be Moderate in Fog, etc.

Article 10.—(1) Every steam-vessel shall, in a fog, mist or heavy rain-storms, proceed at a moderate speed, having careful regard to the existing circumstances and condition.

(2) A steam-vessel hearing apparently forward of her beam, the fog signal of any other vessel, the position of which is not ascertained, shall, so far as the circumstances of the case admit, stop her engines, and then navigate with caution until danger or collision is over.

General Warning Signals.

Article 11.—One prolonged blast shall be given to convey a warning in the following cases:—

- (a) When a steam-vessel approaches her destination.
- (b) To attract the attention of other vessels, especially native craft.
- (c) On approaching a bend in the channel.

STEERING AND SAILING RULES.*Preliminary—Risk of Collision.*

Every person in charge of a steam-vessel shall, as far as circumstances permit, ascertain the risk of collision by carefully watching the compass bearing of an approaching vessel. If the bearing does not appreciably change, such risk should be deemed to exist.

Article 12.—When two steam-vessels are meeting end on, or nearly end on, so as to involve risk of collision, each shall alter her course to starboard so that each may pass on the port side of the other.

This Article only applies to cases where vessels are meeting end on, or nearly end on, in such manner as to involve risk of collision and does not apply to two vessels which must, if both keep on their respective courses, pass clear of each other.

The only cases to which it does apply are when each of the two vessels is end on, or nearly end on, to the other; and by night, to cases in which each vessel is in such a position as to see both the sidelights of the other.

It does not apply, by day, to cases in which a vessel sees another ahead crossing her own course, or by night to cases where the red light of one vessel is opposed to the red light of the other, or where the green light of one vessel is opposed to the green light of the other, or where a red light without a green light, or a green light without a red light, is seen ahead; or where both green and red lights are seen anywhere but ahead.

Article 13.—When two steam-vessels are crossing, so as to involve risk of collision, the vessel which has the other on her own starboard side shall keep out of the way of the other.

Article 14.—When a steam-vessel and a sailing vessel are proceeding in such directions as to involve risk of collision, the steam-vessel shall keep out of the way of the sailing vessel.

Article 15.—Where by any of these rules one of two vessels is to keep out of the way the other shall keep her course and speed.

Provided that when, in consequence of thick weather or other cause, the vessel which should be given way comes so close that collision cannot be avoided by the action of the giving-way vessel alone, she also shall take such action as will best aid to avert collision.

Article 16.—Every steam-vessel, which is directed by these rules to keep out of the way of another vessel shall, if the circumstances of the case admit, avoid crossing ahead of the other.

Article 17.—Every steam-vessel, which is directed by these rules to keep out of the way of another vessel shall, on approaching her, if necessary, slacken her speed or stop or reverse.

Article 18.—Notwithstanding anything contained in these rules, every steam-vessel overtaking any other shall keep out of the way of the overtaken vessel.

Every steam-vessel coming up with another vessel from any direction than two points abaft her beam, i.e., in such a position with reference to the vessel which she is overtaking that at night she would be unable to see either of that vessel's sidelights, shall be deemed to be an overtaking vessel; and no subsequent alteration of the bearing between the two vessels shall make the overtaking vessel a crossing vessel within the meaning of these rules or relieve her of the duty of keeping clear of the overtaken vessel until she is finally past and clear.

As by day the overtaking vessel cannot always know with certainty whether she is forward of or abaft this direction from the other vessel she should, if in doubt, assume that she is an overtaking vessel and keep out of the way.

Article 19.—In narrow channels every steam-vessel shall, when it is safe and practicable, keep to that side of the fairway or midchannel which lies on the starboard side of such vessel.

Article 20.—In obeying and construing these rules due regard shall be had to all dangers of navigation and collision, and to any special circumstances which may render a departure from the above rules necessary in order to avoid immediate danger.

Article 21. When steam-vessels going in opposite directions meet in a narrow river with deep bights or when a long spit of sand is formed on a point the steam-vessel going against the tide shall keep under the point giving the bight to the steam-vessel going with the tide.

Article 22.—When two steam-vessels meet in a straight reach of a narrow river the vessel going with the tide shall stop and make fast to allow the vessel going against the tide to proceed past at a very slow speed. If either of the two vessels has flats in tow alongside and it is necessary to cast off a flat or flats the vessel going against the tide shall drop one flat astern and if there is still insufficient room then the vessel that is made fast shall cast off one or more of her flats as may be necessary.

Article 23.—No steam-vessel shall attempt to strive or race against another. When steam-vessels are proceeding in the same direction, but with unequal speed, the vessel which is steaming slowest shall in the narrow reaches of a river offer no obstruction whatever by crossing the channel or otherwise to the free passage of the faster vessel, and shall ease and if necessary stop the engines as soon as the faster vessel comes abreast in order to allow her to pass freely. The master or pilot of the faster vessel if intending to pass, shall intimate such approach by a prolonged blast from his steam whistle. But no vessel shall pass another vessel at any of the turning points or bends of a river, or in a part of the channel so narrow that a third vessel could not with safety pass them.

Article 24.—No steam or motor-vessel shall get under way, either from her anchor or from the river bank, and turn across the river when another vessel is seen approaching from either up or down stream at such a distance that it is doubtful whether the approaching vessel can safely pass her before the turning round or crossing of the river is completed.

Article 25. When two steam-vessels proceeding in opposite directions are likely to meet at the junction of two rivers, the vessel in the wider of the two streams shall not attempt to enter the narrower river, until the vessel in such latter river has passed out.

Sound Signals for Vessels in Sight of one another.

Article 26.—The words "short blast" used in this rule shall mean a blast of about one second's duration.

Every steam-vessel under way shall, when in sight of any other vessel, in taking any course authorised or required by these rules, indicate that course by the following signals on her whistle or siren, viz.:—

One short blast to mean, "I am directing my course to starboard."

Two short blasts to mean, "I am directing my course to port."

Three short blasts to mean, "My engines are going full speed astern."

Proper Precautions to be Taken in all cases.

Article 27.—Nothing in these rules shall exonerate the owner, or master, or crew of any steam-vessel from the consequences of any neglect to carry lights or signals or of any neglect to keep a proper lookout, or of the neglect of any precaution which may be required by the ordinary practice of seamen, or by the special circumstances of the case.

NOTE.—The practice of coming inland steam-vessels from a position alongside of, or between, flats which obstruct the view, will be considered a breach of this article. Navigation should be controlled from a position which gives a clear view ahead and to two points abait the beam on either side.

Penalty for Disobedience of the Rules.

Article 28.—Any person committing a breach of any of these rules shall, for each offence, be punished with imprisonment for a term which may extend to six months, or with fine which may extend to five hundred rupees, or with both.

NOTIFICATION.

No. 167L., dated Calcutta, the 23rd January, 1928.—His Excellency the Governor having been pleased to order, under rule 18 of the Bengal Legislative Council Rules, 1920, the publication of the following Bill, together with the Statement of Objects and Reasons which accompanies it in the *Calcutta Gazette*, the Bill and the Statement of Objects and Reasons are accordingly hereby published for general information. THE BENGAL VILLAGE SELF-GOVERNMENT (AMENDMENT) BILL, 1928.

A BILL

to amend the Bengal Village Self-Government Act, 1919.

WHEREAS it is expedient to amend the Bengal Village Self-Government Act, 1919, in the manner hereinafter appearing; Ben. Act V of 1919.

It is hereby enacted as follows:—

Short title.

1. This Act may be called the Bengal Village Self-Government (Amendment) Act, 1928.

New section for section 32 of Ben. Act V of 1919.

2. For section 32 of the Bengal Village Self-Government Act, 1919 (hereinafter referred to as the said Act), the following section shall be substituted, namely:—

Establishment of primary schools, dispensaries and infirmaries for animals.

“ 32. (1) The union board, or two or more union boards in the same district or part of a district acting jointly, may, subject to any rules made under section 101, establish—

- (a) primary schools,
- (b) dispensaries, or
- (c) infirmaries for the treatment and care of animals,

or assume charge of any such existing institutions, and shall repair, maintain and manage any such institutions under the charge of such union board or boards.

(2) When two or more union boards acting jointly establish or assume charge of an institution under sub-section (1), they may at a joint meeting fix the proportion of the cost thereof which shall be borne by each union board.”

[Cf. Ben. Act III of 1885, s. 68.]

New section 32A.

3. After section 32 of the said Act, the following section shall be inserted, namely:—

Committees.

“ 32A. (1) Any union board, or two or more union boards at a joint meeting, may constitute committees for the management of the institutions mentioned in section 32, and may delegate to such committees all or any of the powers of management vested in union boards in regard to such institutions.

[Cf. Ben. Act III of 1885, s. 30.]

(2) Such committees may include persons who are not members of a union board.”

New section 59A.

4. After section 59 of the said Act, the following section shall be inserted, namely:—

District board to have powers of control over committees.

“ 59A. The district board shall have over committees constituted under section 32A all the powers of control given to them by this Act over union boards.”

Amendment of section 101.

5. In sub-section (2) of section 101 of the said Act,—

(1) in clause (e) after the word “boards” the words “and of committees of union boards” shall be inserted; and

(2) in clause (j) for the words “and dispensaries” the words “dispensaries and infirmaries for animals” shall be substituted.

STATEMENT OF OBJECTS AND REASONS.

The Bengal Village Self-Government Act, 1919, as it stands at present, does not authorise Union Boards to combine in order jointly to open dispensaries for human beings or infirmaries for cattle, nor does it authorise Union Boards to spend money on veterinary treatment at all. These are defects which should be remedied without delay in view of the lack of proper facilities for medical and veterinary treatment in rural tracts and of the fact that certain Union Boards are willing to combine in order to provide such facilities. A general power of combining in order to establish and maintain village institutions should be given to Union Boards.

It is therefore proposed —

- (a) to empower Union Boards to spend money from the Union fund on veterinary work;
- (b) to empower them to combine with other local authorities to maintain joint dispensaries for men or infirmaries for cattle, and primary schools;
- (c) to empower them to delegate all or part of their authority to manage particular institutions to committees, which need not be composed exclusively of members of Union Boards, but may include outsiders, *e.g.*, private subscribers; and
- (d) to confer on the District Board the same authority over the acts of such committees as it possesses over the work of Union Boards.

So far as the provisions of the Bill affect Union Boards, they are permissive and not mandatory; and the Bill may therefore fairly be regarded as non-contentious.

Member-in-charge.

RESOLUTION ON THE SIXTY-FIFTH ANNUAL REPORT OF THE GOVERNMENT CINCHONA PLANTATIONS AND FACTORY IN BENGAL FOR THE YEAR 1926-27.

GOVERNMENT OF BENGAL.

Revenue Department.

Cinchona.

CALCUTTA, THE 9TH JANUARY, 1928.

RESOLUTION—No. 422.

READ—

The sixty-fifth annual report of the Government Cinchona Plantations and Factory in Bengal for the year 1926-27.

READ ALSO—

The reports of the previous three years.

Mr. C. C. Calder held charge as Superintendent up to the 20th May, 1926. Mr. G. E. Shaw, Government Quinologist, officiated as Superintendent from the 21st May to the 4th July, 1926, when he went on leave, Mr. V. Narayanswami, the then officiating Curator of

the Herbarium of the Royal Botanic Gardens, Calcutta, carried on the current duties of the Superintendent until Dr. J. M. Cowan took over charge on the 12th July. This officer was in charge for the rest of the year.

2. In the Resolution on the Report for the year 1925-26 it was stated that an up-to-date survey of the plantations was urgently needed and that in the mean time very little reliance could be placed on the figures for stock in the profit and loss accounts. Since that resolution was published an officer of the Auditor-General has visited Mungpoo and prepared an elaborate scheme of commercialized accounts for the department. A survey of the plantations has been arranged for in the cold weather of 1927-28 through the agency of the Survey of India, and pending this survey a complete enumeration of all the standing trees has been made. Data have also been collected of the amount of quinine yielded per acre by the various species of cinchona and by trees of different ages.

3. (a) Hitherto the records of area have been based on the principle that roughly every 4,000 lbs. of bark harvested is equivalent to the deduction of one acre from the total area planted at various times.

(b) This system has for many years been considered the best way of estimating the stock of quinine on the plantations, but it has had the result of giving a misleading idea as to the area under the charge of the Managers and requiring cultivation.

(c) The 669,000 lbs. of dry bark which was harvested in the year of report came mainly from thinnings and from dead and drying trees and for several years there has been very little clear felling. Even from the point of view of calculating stock it is possible that the figure of 3,153 acres, given in last year's report as the area under Cinchona, has been unduly reduced by the operation of this system through a course of years.

(d) In this year's report, therefore, Mr. Cowan has restored the area which has actually to be cultivated, viz., 4,742 acres. A part of this area is only very sparsely covered with productive trees, but not sufficient to throw any doubt on the conservatism of the estimates of stock arrived at in Appendix A of the Report.

4. The total amount of green bark which could be harvested from the Mungpoo and Munsong plantations at the present moment is estimated at 21,762,500 lbs. of green bark equivalent to 86,05,000 lbs. of dried bark. The value of this bark is at least Rs. 15,80,000 reckoned at the rates which have hitherto been adopted for calculating the value of the plantations according to the average cost of production. In the block account the Mungpoo plantation has been valued at Rs. 8,08,254 and the Munsong plantation at Rs. 18,05,057. The basis of this calculation is 1 anna 5 pies for every unit of quinine in each pound of bark. Owing to the enumeration of the trees the Superintendent has been able to show a considerable increase over last year, but on the other hand he has written down the value of the timber, which is mainly grown as a means of preparing the land for another crop of cinchona and is cut down before it is mature.

5. In this connection it may be mentioned that there is a small plantation of Ipecacuanha at Mungpoo which is ready for harvesting and would realise a large sum at the present market rates.

6. The quantity of dried bark used in the factory during the year was 11,27,519 lbs. of which 5,87,000 lbs. was Bengal bark, the rest Java bark belonging to the Government of India. Altogether 55,136 lbs. of quinine sulphate and febrifuge was manufactured at a cost of Rs. 159 a pound and 19,197 lbs. of febrifuge at Re. 1-6 per pound, 387 lbs. of other quinine salts at Rs. 3 per pound, and 161 lbs. of other products at Rs. 2 a pound. Even at the reduced rate of Rs. 18 a pound introduced from the beginning of 1926 quinine sulphate therefore gives a profit of Rs. 13½ a pound.

The share of the products of the factory which belongs to the Government of Bengal was 47,731 lbs. of which about two-thirds were sold. Provided the demand continues on the present scale it would appear that the existing supply of bark on the plantations would suffice for the needs of about 24 years. But if India as a whole is to become self dependent, it will be necessary to find new areas for plantation. With this object in view the Forest Department has agreed to an experiment in the reserved forest at Samsing in the

Kalimpoung subdivision where 2,000 acres of excellent land are available provided the disadvantages of an excessive rainfall prove to be counterbalanced by the good drainage and other natural advantages. For the first time in the appendices of the Annual Report the value of the stock has been taken as the cost of bark *plus* the cost of manufacture instead of the selling value. This change has resulted in a nominal loss of Rs. 2,57,842 in the profit and loss account.

All the figures and facts compressed with Mr. Cowan's last report give welcome indications that good progress has been made during the year under report and that in the cinchona plantations and the factory the local Government has a very useful and profitable property. The Governor in Council is pleased to record his appreciation of the thoughtful work Mr. Cowan has done for the department during his tenure of office and to thank Mr. Shaw and the other officers who have assisted the Superintendent with the utmost loyalty.

Order.— Ordered that this resolution be published in the *Calcutta Gazette* and that a copy, with a copy of the Report, be submitted to the Government of India.

By order of the Governor in Council,

F. A. SACHSE,

Secretary to the Government of Bengal.

RESOLUTION ON THE REPORT OF THE BOARD OF REVENUE ON THE LAND REVENUE ADMINISTRATION OF THE PRESIDENCY FOR THE YEAR 1926-27.

GOVERNMENT OF BENGAL.

Land Revenue.

CALCUTTA, THE 9TH JANUARY, 1928.

RESOLUTION- NO. 4011.L.R.

READ—

The Report of the Board of Revenue on the Land Revenue Administration of the Presidency for the year 1926-27.

The office of the Member of the Board of Revenue was held by Mr. K. C. De, C.I.E., throughout the year under report.

2. There were several natural calamities during the year of which the cyclone in the Cox's Bazar subdivision of the Chittagong district and the flood in the Contai, Tamluk and the Sadar subdivisions of the district of Midnapore were very severe. Prompt and adequate measures were taken by Government for the relief of the distressed people, and valuable aid was received from the public, both individuals and associations. The weather conditions were not altogether favourable, but the outturn of paddy and jute crops in the province, as a whole, was fair and the prevalent high rates of wages for labour were not affected. There was a slight fall in the prices of cloth, but as regards other necessities of life there was no appreciable variation. The rates of interest charged by private money-lenders did not show any tendency to rise. This was partly due to a steady increase in the number of co-operative credit societies.

3. The coal industry suffered from the effects of continued depression of the market, but there was considerable improvement in the prospects of the Kulti and Asansol Iron Works. The other chief industries of the province, namely jute and tea, had a fairly prosperous year. His Excellency has read with interest the Board's account of the miscellaneous industries which are going on actively in the mufassail districts of Bengal. The list is a long one and covers districts as distant as Noakhali and Bankura, and manufactures as diverse as umbrella handles and mosquito nets and ice. There has been an extension of indigenous electric light and transport companies, and passengers alighting from the train at any country station of importance have learnt to expect a bus or motor-car to take them to their village homes. The management of these bus services is entirely local and proves that the motor industry has a big future in Bengal.

4. There was no outbreak of serious epidemic diseases although stray cases of cholera, small-pox and malaria occurred here and there all over the Presidency. As in previous years the heaviest toll of mortality was due to malaria and kala-azar. Anti-malarial societies and kala-azar centres continued to do good work, and their usefulness is being gradually appreciated.

5. The current demand of land revenue was Rs. 2,91,09,322 and collections were 94·64 per cent. of the total demand. The sale law was administered with moderation, and only 8·3 per cent. of the total defaults was brought to sale.

6. The percentage of cost of management of Government estates on the current demand was 10·29 against 9·7 in the previous year. A sum of Rs. 1,99,614 representing 3·7 per cent. of the current demand was spent on agricultural, sanitary and miscellaneous improvements. This is a great

improvement on the previous four years when only an average of Rs. 121,233 was available. The number of schools in Government estates increased from 3,525 to 3,742 and it is satisfactory to note that there was a general increase in the number of pupils.

7. Colonization in the Bakarganj Sunderbans is now in its 20th year and the scheme relating to 22 estates with headquarters at Khepupara is now approaching completion. The total sum advanced up to date by Government is Rs. 13,45,875 of which Rs. 3,10,460 has been spent on establishment and Rs. 9,53,727 on improvements. The total receipts have been Rs. 16,41,040 including Rs. 9,99,659 from rent and Rs. 4,88,537 from forest produce. If the present rules for *salami* had been in force longer, the income would have been much larger. During the year under report 8,648 acres were surveyed and assessment was confirmed of 6 estates with an initial revenue of Rs. 5,843 which will eventually rise to Rs. 33,656.

Provision is being made for a new scheme in the Bhola subdivision where many large areas are available for settlement provided the necessary drinking water tanks are excavated. The total area thus being settled or available for settlement is 35,010 acres, and it is calculated that the expenditure proposed will bring in a *salami* of Rs. 2,20,000 and a final revenue of Rs. 1,22,000.

8. The original colonists have shown a tendency to sell their lands to speculators from outside and the local officers are in favour of the Collector having control of transfers in these areas on the lines of the provisions of Chapter VIIA of the Tenancy Act as in the case of aborigines in Bankura and Birbhum. If an amended Tenancy Act introduces free transferability of raiyati holdings, it is possible that the legislature will be asked to agree to an exception for these areas.

9. The work of colonization is also in progress in the 24-Parganas Sunderbans. About Rs. 23,000 has been spent in the year under report on the construction of embankments and excavation of tanks. The material condition of the colonists is fairly satisfactory. Efforts are being made to meet the persistent demand of the colonists for the expansion of primary education among them. The Central Co-operative Bank and the Arbitration Boards have been doing useful work among the colonists.

10. In the permanently settled area, the relations between landlords and tenants were generally satisfactory. The most common causes of friction, where such existed, were enhancement of rent, exactions of *abwabs*, levy of interest on arrear rents and mismanagement of estates by the agents of the absentee landlords.

11. The special provisions of the Bengal Tenancy Act imposing restrictions on the alienation of land by aborigines were extended during the year to certain aboriginal tribes in the district of Mymensingh.

12. The thanks of the Governor in Council are due to the Board of Revenue for the efficient administration of the Land Revenue Department, but the tours and inspections of the Board described in the report under review and in the previous report do not compare favourably either in scope or extent with the work of the Board in this respect in some previous years, and the Governor in Council trusts that the Board will be able to arrange to devote more time to this branch of their work in future.

By order of the Governor in Council.

Secretary to the Government of Bengal.

CHAS. A. BENTLEY, M.B., D.P.H., D.T.M. & H., *Director of Public Health, Bengal.*

DEPARTMENT OF AGRICULTURE, BENGAL.

Monthly Weather and Crop Report of Bengal for December 1927.

I. **Character of the season.**—During the month under review, there was no rainfall throughout the Presidency. The usual rainfall statement is appended.

II. **Progress of agricultural operations.**—Harvesting of winter paddy was progressing under favourable conditions. Preparatory tillage for and sowings of summer paddy seedlings continued, but the operations could not progress satisfactorily owing to drought. Sowings of spring crops were approaching completion. Cutting and pressing of sugarcane continued in Eastern Bengal.

III. **State of standing crops.**—The condition of standing spring crops was generally fair except in parts of West and North Bengal, where it was poor owing to lack of adequate soil moisture.

IV. **Prospects and probable outturn.**—The outturn of winter *til* was estimated at 83 per cent. of the normal. The prospects of sugarcane and cotton were generally fair while those of spring crops were promising except in some West and North Bengal districts, where drought is likely to adversely affect the outturn.

V. **Damage to standing crops.**—Continued drought caused damage to the standing crops in some West and North Bengal districts.

VI. **Condition of agricultural stock.**—The condition of live-stock was, on the whole, fair except for sporadic cases of cattle-disease reported from nine districts.

VII. **Failure of pasturage and fodder.**—Insufficiency of fodder was reported from parts of Nadia and Murshidabad.

VIII. **Prices of food-grains.**—During the second half of the month the price of common rice of the cheapest quality rose in five districts, fell in thirteen and remained stationary in the rest of the Presidency. The prices ranged from 1 seers 10 chitaks per rupee in Rangpur to 7 seers 10 chitaks per rupee in Chittagong.

IX. **Condition of agricultural population.**—The condition of agricultural population was, on the whole, fair except in parts of Nadia, Murshidabad, Birbhum, Bankura, Dinajpur and Malda, where distress prevailed owing to a partial failure of winter rice crop. Test relief works continued in Birbhum, Dinajpur and Malda.
